Education

- **Institute of Engineering Jiwaji University** — Madhya Pradesh, India
  Bachelor of Engineering in Computer Science, CGPA - 7.7 — *August 2023 - June 2027*
- **Govt. Boys Higher Secondary School** — Madhya Pradesh, India
  XII, percentage - 92.8% — *2023*
- **Madhav Memorial Higher Secondary School** — Madhya Pradesh, India
  X, percentage - 93% — *2021*

Experience

- SKDG Websoft Technologies — April 2026 – July 2026
  Software Developer Intern — *Remote*
  Developed responsive and modern user interfaces using HTML, CSS, JavaScript, Bootstrap Built responsive user interfaces that provide a seamless experience across desktops, laptops, tablets, and mobile devices, while implementing modern animations to enhance user engagement Projects:
  - **BuilderFloor.in** | Live Link
  - **Havendaxa** | Live Link
  - **Egpay** | Live Link

Projects

- **Tourer - A full stack booking portal (GitHub — Live — Demo)**: Developed an interactive platform enabling users to manage their houses, book hotels, and engage in a vibrant community. Implemented Authentication and Authorization using **Passport.js**. Utilized a comprehensive tech stack including **HTML, CSS, JavaScript, Node.js, Express.js, EJS, Passport.js, Cloudinary, and MongoDB** to ensure seamless functionality and user experience. Included **Google Authentication** and **Github Authentication**. Also added **Filter** and **Search** features by which users can search houses accordingly. Added an interactive map using **Leaflet.js** by which users can see the location of that place.

- **IEJU Archive - College website (GitHub — Live)**: Built a centralized platform for Jiwaji University Engineering students, aggregating academic resources such as **syllabus**, **books**, **PYQs**, with a responsive UI using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**. Designed responsive pages ensuring a seamless experience across both mobile and desktop devices. With **500+ active users** (Proof), the website efficiently delivers organized access to study materials and updates.

Skills

- **Programming Languages**: C++
- **Web Development**: HTML, CSS, JavaScript, Node.js, Express.js, Bootstrap, MongoDB, SQL
- **Course Work**: Data Structure and Algorithms
- **Soft Skills**: Teamwork, Problem Solving
- **Tools**: Git, GitHub, Hoppscotch

Achievements

- Solved **1300+ DSA** problems (Profile) across LeetCode, GeeksForGeeks, CodeChef, and Codeforces.
- Highest rating of **1672** at LeetCode.
- Highest rating of **1317** at CodeChef.
- Highest rating of **922** at Codeforces.
- Qualified GATE CS'2026

Certifications

- **Full Stack Web Development – Delta 2.0**
  Covered HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, and project deployment. Built real-world projects with authentication and responsive design.
- **Data Structures and Algorithms in C++ – Cohort 2**
  Covered arrays, linked lists, trees, graphs, DP, recursion, STL, and competitive programming.
